

## **International school - workshop**

### **“GIS support for Russia and CIS countries modernization. Organizational, Technological and Human Capacity”.**

From September 25<sup>th</sup> 2011 to October 8<sup>th</sup> 2011 within the territory of the Russian Federation organizes the school-workshop, which will take place on the ship going the route Perm – Kazan – Ulyanovsk – Saratov – Samara – Volgograd – Astrakhan – Perm. On this route a number of RF Institutions of higher education and Scientific Centres – leaders in the sphere of geoinformation technology, Earth remote sensing and mathematical-cartographic modeling data use - are situated. Excursions in the geoinformation technology development centres in institutions of higher education and large institutes on the route are planned.

The topic of the international school-workshop is **“GIS support for Russia and CIS countries modernization. Organizational, technological and human capacity”.**

Highly motivated participants of the international school-workshop are supposed to be the representatives of high schools and academic organisations, federal and regional bodies of state power and large business companies. After the school-workshop the participants will be provided with the international certificate of International Cartographic Association (ICA) of advanced training – Certificate of Attendance (72 hours).

About 120 – 130 Russian specialists in the sphere of geoinformation technology use for sustainable spatial development as well as 20 – 30 foreign experts from Europe, Asia and America are expected to participate in the school-workshop.

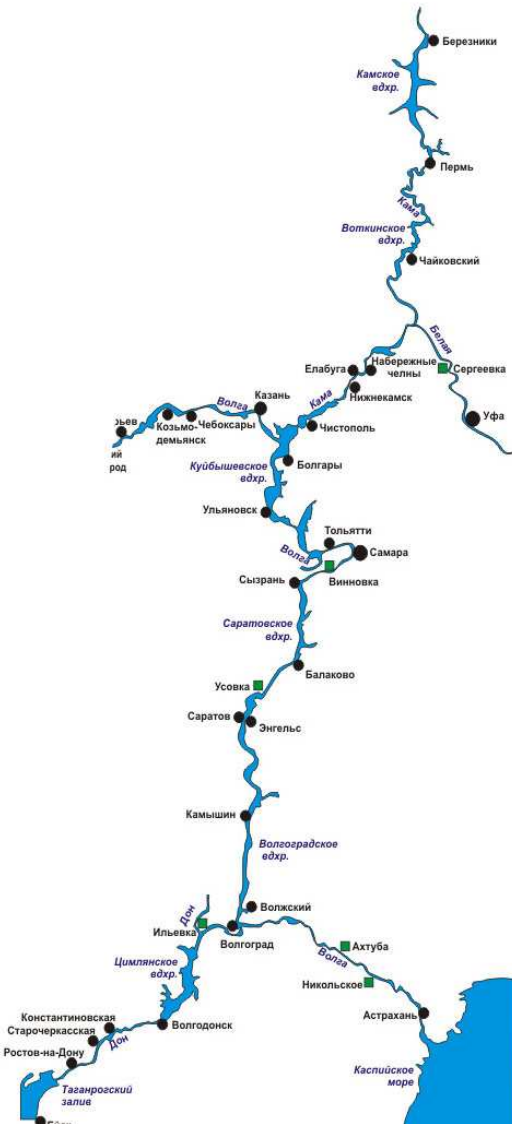

Potential official organizers of the international school-workshop:

- International Cartographic Association (ICA)
- International Eurasian Academy of Sciences
- International Geographical Union (Commission on Geographical Information Science)
- Committee on Data for Science and Technology (CODATA)
- UNESCO (Moscow Office)
- CIS Interstate Fund for Humanitarian Cooperation (IFHC)
- Russian Foundation for Fundamental Research
- GIS Association (Russia)
- ITC "ScanEx"
- Administration of Perm Kray
- Administration of the Republic of Tatarstan
- Lomonosov Moscow State University
- Astrakhan State University
- Volgograd State University
- Kazan (Volga Region) Federal University
