Horst Kremers, Vladimir Tikunov (eds.)

InterCarto – InterGIS 12 International Conference on Geoinformation for Sustainable Development

Berlin, Germany, August 28-30, 2006

Proceedings

Authors:

Nguyen Xuan Thinh, Rico Vogel, Peter Fischer-Stabel, Stefan Wannemacher, Martin Mares, Harry Storch, Stanisław Harasimowicz, Jarosław Janus, Barbara Ostragowska, Wojciech Przegon, Sybille Brozio, Hans-Peter Piorr, Frank Torkler, Daniela Müller, David Fraser, Tran Thanh Be, Stefan Wagenknecht, Elmar Csap-iovics, Ivan Nestorov, Dragutin Protic Gojko Nikolic, Józef Hernik, Łukasz Popławski, Sebastian Hoehstetter, Ulrich Walz, Arthur Green, Kai Bucher, Stefanie Henke, Jürgen Schweikart, Yiwei Cao, Ralf Klamma, Marc Spaniol, Matthias Jarke, Raphaëlle Arnaud, Anna Sinitsyna, Kira Shingareva, Iliya Feldman, Ralph Heinrich, Albrecht Gnauck, Angela Czerwinski, Thomas H. Kolbe, Lutz Plümer, Elke Stöcker-Meier, Sabine Witschas, Katrin Kettner, László Zentai, Milan Borik, Vojtech Honzik, Rufino Pérez Gómez, Wieland Künzle, Thomas Blaschke, Dirk Schmidt, Stephan Gottwald, Thomas Roatsch, Marita Wählisch, Frank Scholten, Angelika Hoffmeister, Klaus-Dieter Matz, Gerhard Neukum, Carolyn C. Porco, Evgeniy Lazarev, Zhanna Rodionova, Julia Iluhina, Pavel Litvin, S.G. Pugacheva, V.V. Shevchenko, Henrik Hargitai, Szaniszló Bérczi, Elena A. Arkhiptseva, Serge M. Leonenko, Dimitry Zhukov, Irina Karachevtseva, Elena Cherepanova, Maria E. Fleis, Tatiana V. Pletneva.

Order Form

Deutsche Gesellschaft für Kartographie e.V.
Sektion Berlin-Brandenburg
Horst Kremers
P. O. Box 20 05 48
D- 13515 Berlin, Germany
Fax + 49 30 3728587

I / we order 1 copy of

sent by surface mail
 air mail

Ordered by: *Name and full address*

Proceedings,
InterCarto-InterGIS 12, Berlin 2006
ISBN 3-00-019239-5
Euro 68,00 + postage and handling

Shipment address: *if different from order address*

Place, Date, Signature:

Orders placed by eMail should be prepaid. Contact office@horst-kremers.de for corresponding cost of postage and handling

Index

Nguyen Xuan Thinh, Rico Vogel: GIS-based multiple criteria analysis for land-use suitability assessment in the context of flood risk management	1 - 12
Peter Fischer-Stabel, Stefan Wannemacher, Martin Mares: Monitoring and Mapping of Urban Sprawl: Sealed Areas in Rhenania-Palatinate	13 - 22
Harry Storch: GIS-based Sustainability Assessment of Settlement Structures in Megacities	23 - 33
Stanisław Harasimowicz, Jarosław Janus, Barbara Ostrągowska: Using digital maps for determining the distance of arable land plots from household dwellings	34 - 44
Wojciech Przegon: Spatial structures in the polish villages as assessed by agricultural geodesy	45 - 53
Sybille Brozio, Hans-Peter Piorr, Frank Torkler, Daniela Müller: Bioenergy from Biomass: Modelling with GIS	54 - 61
David Fraser, Tran Thanh Be: An Agricultural Management System Designed to Determine the Capability of Farm Land at the District, Community and Hamlet level in Vietnam	62- 72
Stefan Wagenknecht, Elmar Csaplovics: Sustainable Management and Development of Protected Regions	73 - 82
Ivan Nestorov, Dragutin Protic , Gojko Nikolic: Production and prospective application of CORINE Land Cover database for Serbia and Montenegro	83 – 89

Józef Hernik:

Anti-erosion land protection in the view of sustained development 90 - 99

Łukasz Popławski:

Courses of sustainable development of Cisowsko-Orlowinski
Landscape Park in opinion of commune's Daleszyce inhabitants
in Swietokrzyskie Voivodeship (Poland) 100 - 107

Sebastian Hoechstetter, Nguyen Xuan Thinh, Ulrich Walz:

3D-Indices for the Analysis of Spatial Patterns
of Landscape Structure 108 - 118

Arthur Green, Kai Bucher:

Geospatial Analysis of Cotton Production Potential
in Sub-Saharan Africa 119 - 130

Stefanie Henke, Jürgen Schweikart:

The Muheza district in Tanzania as an example for the use
of a Geographic Information System in rural medical care
provision 131 - 142

Yiwei Cao, Ralf Klamma, Marc Spaniol, Matthias Jarke,

Georgios Toubekis, Michael Jansen:

Spatiotemporal Thematic Maps for Sustainable Development
of Heritage Site Tourism 143 - 153

Raphaëlle Arnaud:

A GIS based method to assess the vulnerability of crossed regions
to traffic – the case of the transalpine freight traffic 154 - 164

Anna Sinitsyna, Kira Shingareva, Iliya Feldman:

GIS Concept Development for the Megacity Road and
Transport Complex (Case Study Moscow Preliminary Ideas) 165 - 173

Ralph Heinrich, Albrecht Gnauck:

Visualization of Surface Water Quality Data - An Interpolation
Method using Cellular Automata in GIS 174 - 181

Angela Czerwinski, Thomas H. Kolbe, Lutz Plümer, Elke Stöcker-Meier: Interoperability and accuracy requirements for EU environmental noise mapping	182 - 194
Sabine Witschas, Katrin Kettner: Crossing Borders: Mapping European Mining Regions	195 - 205
László Zentai, David Fraser: The “sustainable development” of cartography in higher education according to the Bologna declaration	206 - 211
Milan Borik, Vojtech Honzik: Open Source GIS: www Visualization and Analyses of the Open-Cast Mining Activities in the North Bohemia Coal Basin	212 - 221
Rufino Pérez Gómez: Enhancing the effectiveness in the management of NGOs Sustainable Development Projects with GIS and IT Technologies ..	222 - 232
Wieland Künzel: Mapping for rapid response and early recovery: Lessons learned while responding to the Pakistan earthquake	233 - 241
Thomas Blaschke, Dirk Schmidt: eMapBoard: from a collaborative situation mapping environment to a disaster management decision support system	242 - 251
Stephan Gottwald: High Water Monitoring and Warning via <i>PSIcontrol</i>	252 - 257

**Contributions to the International Association of Cartography
Commission on Planetary Cartography**

(Commission Meeting in conjunction with InterCarto-InterGIS 12 Berlin 2006)

Thomas Roatsch, Marita Wählisch, Frank Scholten, Angelika Hoffmeister,
Klaus-Dieter Matz, Gerhard Neukum, Carolyn C. Porco:

Mapping of the icy Saturnian satellites –
Results from CASSINI-ISS 258 - 266

Evgeniy Lazarev, Zhanna Rodionova1, Julia Iluhina1, Pavel Litvin:

The creation of the Moon, Mars and Venus hypsometric maps series
according to the remote sensing data 267 - 277

S.G. Pugacheva, V.V. Shevchenko:

Interpretation of the Photometric Observations of Mercury
From MARINER-10 278 - 285

Henrik Hargitai, Szaniszló Bérczi:

Planetary maps for education: the completion of the series:
Multilingual maps of Terrestrial Planets and their Moons 286 - 290

Elena A. Arkhiptseva:

Database Development on Venus Cartographic Studyness 291 - 298

Kira B. Shingareva, Serge M. Leonenko, Dimitry Zhukov,
Irina Karachevtseva, Elena Cherepanova, Maria E.Fleis:

Towards GIS "The solar system planets". Development of
bilingual planetary nomenclature database 299 – 306

Tatiana V. Pletneva:

Database Development on Mars Cartographic Studyness 307 - 313
